Larry Konopacki:

Because councils are by definition advisory, we do not include "advisory" in their names. The WLC draft indicates that the department appoints the members of the council. I do not see any examples like that in current law. I specified that the secretary appoints because it looks to me as though most council members who are appointed by someone other than the governor are appointed by secretaries. Section 15.09 (1) provides that members of councils serve for terms specified by law, so a statute creating a council needs to specify terms. This preliminary draft provides that members of the council serve at the pleasure of the secretary, meaning they serve for indefinite terms.

Let me know if you have any questions or want changes in the draft.
